DETAILED ACTION

Claim Objections

1. Claims 4-10 are objected to under 37 CFR 1.75(c) as being in improper form because they are dependent from a multiple dependent claim 3. See MPEP § 608.01(n). Accordingly, claims 4-10 have not been further treated on the merits.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte*

Hasche, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 1 recites the broad recitation “a surface-active substance,” and the claim also recites “in particular at least one tenside,” which is the narrower statement of the range/limitation.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Heinz (U.S. Patent No. 3,110,129).

7. Regarding claim 1, Heinz discloses a liquid storage means for supplying plants (Col. 1, lines 68-72, through Col. 2, line 1), which is formed from a porous storage material, characterized in that the porous storage material is formed by a foam with a hardened, biocompatible and open-pore plastic foam support which contains a surface-active substance, in particular at least one tenside, as a component (Col. 2, lines 51-57: fatty alcohol sulphonate).

8. Regarding claim 2, Heinz discloses the plastic foam support is formed by a urea resin or melamine resin (Col. 2, lines 46-48).

9. Regarding claim 3, Heinz discloses the foam is in the form of flakes or in the form of a molded body or is introduced directly into the ground in the form of a closed layer

by means of a mobile insertion vehicle (Col. 1, lines 11-27, and Col. 2, lines 69-72, through Col. 3, lines 1-5).

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fischer (U.S. 3,482,353), Gluck et al. (U.S. 3,899,850), Byles (U.S. 2004/0020109), Perrin (U.S. 4,789,584).
